COLLECT

O Lord, we beseech thee, absolve thy people from their offences; that through thy bountiful goodness we may all be delivered from the bands of those sins which by our frailty we have committed. Grant this, O heavenly Father for the sake of Jesus Christ our blessed Lord and Savior. Amen.

Pvt. Willie Tahara, APO 758 New York, NY....France has been up to now quite miserable to us all, The weather and Jerries have made things very tough. It reminds one of home, the rain, the cold, and the forests. The people are very glad conscious, full of pride and very hard working when they are working. Where we are now at, we see daily the old town crier giving his news to the people. He comes with a roll on his drums and away he goes, giving his news. He's speaking so fast, before the people could congregate, he's finished..... Saw Shuji some time ago and had quite a chat with him. Everyone over this way is quite all right.....Tad Fujioka is fine as ever, as well as Eddie Sato.

Betty Aoki, Milwaukee, Wis.....I am finally in Milwaukee after being on the road for two weeks and I am glad to be here at last. At the present I am with Mrs. Okada and her mother and brother and they are really swell. I have met the Shio family and was invited last night to a party in their home where I met a bunch of nice girls. The nisei is here are really nice and friendly. I am happy that I came here and wish that more of my friends can come here. The town is larger than Seattle and very flat and doesn't have all the beautiful places, but the people here are so nice.

Calvin Minomiya, Oberlin, Ohio.....Here at school, I am taking Eng. Comp., Spanish, Math, History and PE. I have to take Spanish for 3 years to fulfill my requirements for a degree. I was very fortunate in the selection or rather assignment of teachers and hours. In one of our "Freshman Week" lectures, I noticed that the Dean of the college here recognizes some of those fundamentals were discussing. He stated something to the effect that the education we obtain isn't an end in itself but the training of oneself to go beyond and try to solve the more basic problems of the complex society of today. Together with this, he mentioned that some of us must be the conscious of the society we live in and that we must have educated men who realize such problems by taking the basic liberals arts course to gain the fundamental background to attack the problems of tomorrow.
I think that we, who were realizing some of those problems in the small sphere of the society of a relocation center and, in addition, a few of the fundamentals of the whole world society are much further advanced than those who were not so fortunate to participate in such a group. What I say from Oberlin is "keep it up."
Florence Kimura, 257 So. 46th St., Phila. 39, Pa.....
School is really what any person would want. The kids are swell and it seems I'm suppose to be a Chinese. I wouldn't talk though, because I can't tell the defference either. West Philly formed a Japanese--Chinese girls club and they wanted me to attend. I think I will. I go to the student office and help with the Victory Corp. It handles the blood pledges which is sent downtown and the Red Cross takes over. The students secure the pledges and it seems West Philly was the top of all public schools in Philadelphia.

WOUNDED IN ACTION: Pfc. Herbert Fushimi, Pvt. Norio Nakauchi, Pvt. [illegible] Sanuma were reported wounded in Southern France.
